SCHMITZMIX CONCRETE PROJECT GALLERIES

Outdoor Dining Room

As the backyard becomes a “lifestyle” for more and more homeowners in Southeastern Wisconsin, ready-mixed concrete is helping to blur the line between a home’s interior and exterior.

This outdoor dining area is a good example of this blurring line, as the colored-stamped concrete blends with wood, natural stone, wrought iron, fabric, and mortarless masonry units to create a beautiful, intimate outdoor area for eating, entertaining, and reconnecting with family and friends.

Margarita anyone?
