SCHMITZMIX CONCRETE PROJECT GALLERIES

Scored, Colored Concrete Courtyard

As this backyard courtyard demonstrates, elegant hardscape design can be achieved through the subtle use of integral color and simple scoring of the concrete surface.

The straight-line patterns scored in the concrete provide continuity for the homeowners (and other family members and guest) as they move across the courtyard to its many outdoor “rooms,” including this elevated relaxation and meditation area. The colored concrete blends naturally with the wood benches and plantings and is used in other parts of the courtyard to provide access to and define areas for sitting, dining, recreation, and entertaining.
