SCHMITZMIX CONCRETE PROJECT GALLERIES

Colored-Stamped Concrete Patio

The use of colored-stamped concrete can dramatically improve the way you and your family and guests experience the outdoors.

By echoing the colors and textures of nature, this colored-stamped patio provides the look and feel of cut limestone, helping the patio to blend in with its surroundings while extending family living space from inside the home to the backyard.

Unlike other pavement and decking materials, a concrete patio needs little in the way of annual maintenance. If you enjoy nature and entertaining outdoors, installing a colored-stamped concrete patio is your best choice.
