## SCHMITZMIX CONCRETE PROJECT GALLERIES

### Exposed Aggregate Concrete Driveway

Exposed aggregate is a popular decorative finish in Southeastern Wisconsin and is often used to provide texture and achieve a “soft” or “natural” look for the hardscape elements in a landscape design.

Durable, slip resistant, and able to withstand Wisconsin winters, exposed aggregate finishes add beauty and distinction to concrete driveways, patios, sidewalks. The exposed aggregate finish created for this home works well with the home’s cedar shakes and siding and its unique cobblestone veneer.
